4/25/20

Hello Camp Families,

I hope this email finds you all safe and well. We thought an update on the summer camp situation would be helpful. Unfortunately, we have very little information to pass on at this time. We, like you, are in a holding pattern. We are diligently working on opening camp as soon as state and local authorities deem it safe to do so. In the mean-time we are continuing to plan for "The Best Summer Ever" in the hopes that we will soon be able to share it with your kids. They deserve it and let's be honest, so do you.

Rest assured we will take every precaution necessary to ensure the health and safety of both you and your children during these trying times.

Please note we have NOT withdrawn camp balances to this point and will not do so until we have a clear understanding of exactly what our camp start date and schedule will be this summer. If you should have any question regarding camp week adjustments or changes please contact me via email at the link provided below. During these unprecedented times we obviously want to make camp as easy and enjoyable as possible for both you and your child/children. We will keep you up to date with more specific details as they become available.

As a reminder, in an effort to be prepared for camp opening we ask that all camper information/confirmation paperwork be completed and returned to us prior to your campers first week. Please see attached packet. Also remember to include a printout of immunizations, including proof of your child's last physical. Doctor's health forms are valid for 18 months for summer camp as long as all immunizations are up to date.

Print and mail or email paperwork to mstg@dedhamhealth.com .We look forward to seeing you and your kids this Summer at Camp.

Thank you,

Michelle Sayers, Melanie Camillieri, & Naoufal Houmairy

Required Camper Forms

With so much doom and gloom going around we thought you could use a little good news. For so many of us, exercise plays a vital part of our physical, mental and emotional well being. Now more than ever it's imperative that we do everything we can to stay active and healthy. With this in mind Dedham Health has created a library of exercise videos for you to utilize in the comfort of your home.

Attached to this email is a link that you can click on. This link will bring you to a registration page which will give you access to three "Dedham Health At Home" workout videos for you to utilize and enjoy
